EDUCATION

Rochester Institute of Technology (2017-2021)
Pursuing B.S. degree in Computer Science, with a minor in Computing Security. 3.3 GPA.

PROJECTS

Make-N-Share • *makenshare.com*
A web app for crowd-sourced 3D printing. I was responsible for the front-end of the app, using fully custom HTML and CSS. Built alongside a team of 3 other people during the BrickHack4 hackathon.

Rock, Paper, Scissors, RUSH! • *goo.gl/Hn5KjT*
An iOS game I developed in Swift as a personal project, and published in the App Store. I learned about many core iOS development concepts, such as core data and auto-layout constraints.

TrailHub • *goo.gl/5HXiXP*
A web app for planning camping trips with friends. I designed and built the front-end. Worked on it with a team of people during Bitcamp 2017.

Tabletop RPG Dice • *goo.gl/8YqzWY*
A dice-rolling iOS app written in Swift and published in the App Store. The first app I created independently. I learned about Swift & app design.
